Euroscreen® Control Box

Euroscreen® Control Box is a new multifunctional control box for easy and trouble-free connection of motorized projection screens. The box provides you with the benefit of having one single unit to be compatible with no less than five possible connection options. The Control Box features the most common control functions such as RF, IR, Dry Contact/Contact Closure, 12V trigger and RS232.

Euroscreen® offers optional transmitters for communication with the box; RF AutoLink trigger, RF wall switch transmitter, and RF or IR remote control. In addition to the IR remote control and the box's built-in IR eye, an external optional IR eye is available to enable hiding of the control box out of sight. Furthermore are Serial Adaptor (DB9 to RJ11), Dry Contact/RS232 cable (15m) and 12 V trigger cable (15m) available as communication options. The Control Box is equipped with a 300cm long power cord, a 150cm screen cord, and a convenient 30cm Dry Contact/RS232 cable is included as standard.

- 1 single box provides no less than 5 possible control options
- Compatible with RF, IR, Dry Contact/Contact Closure, 12V trigger and RS232
- Dry Contact/RS232 cable (30cm) included
- 300cm power cord
- 150cm screen cord
- The Control Box is also available in complete kits

The multifunctional Euroscreen® Control Box, 210 730.
