

WA-35 - Amplifier System

Portable MP3 FM amplifier system with wireless microphone

- Compact and ultra-light class D amplifier system (total weight: 1.75 kg)
- Power capability of 25 W in battery operation (integrated 14.8 V rech. LiPo batt.) and 35 W with PSU
- Ideally suited for outdoor applications due to splashproof housing, stainless steel screws, impregnated full range speaker with dual cone and push-on silicone cover for the control unit
- MP3 reproduction via USB interface and SD card slot
- FM radio with 20 station presets
- Wireless 16-channel microphone system in the licence-free range 863-865 MHz (1 x 1.5 V battery, AA size)
- Sound adjustment
- Connection facility for a cable-connected microphone
- Alarm siren: 2-tone and wailing sound
- LED lamp with continuous light, automatic SOS light and flashing light
- Charging status indication
- Deep discharge protection
- 9 mm (3/8 ") stand sleeve
- Integrated recessed carrying handle
- Robust carrying strap with integrated microphone bag
